Oil Painting: From Material to Concept

Term/Session Winter 2024

Course Description

This course will explore traditional and experimental oil painting techniques and develop crucial conceptual ideas pertinent to contemporary painting. Students will explore the role of painting as a research tool and as a system of thinking. Whilst helping students to develop painting techniques and their observational skills, this course will encourage students to speculate further on the nature of a painting practice and the role painting plays in contemporary culture. Dogmatic devices and restrictive challenges at the beginning of term will give way to unrestricted self-directed study by the end of the course where students will be asked to think their way conceptually through paint. Through praxis and critique students will question their role in the painting process and the importance of an artist's cultural and ecological situation.

Text's which directly refer to painting as a material visual concern will be set alongside the practical program. Other course materials will be delivered through group seminars, presentations and group critiques. Students will also be encouraged to contribute to the content of the class through the visual analysis of paintings which they themselves will draw from the canon of art history.

Please note that this is a solvent free oil painting class and turpentine will not be allowed in the studio. Please see the materials list for appropriate replacements and substitutions.

Learning Outcomes:

- Students will expand on their foundational knowledge of oil paint techniques and materials. They will continue to develop their direct observational skills and their knowledge of aspects of the history of Art.
- Students will develop a fundamental knowledge of key philosophical concepts within the field of aesthetics.
- Students will learn how to expand and disrupt their received painting knowledge through self-directed study in light of their assessment of key philosophical concerns.
- Students will recognize the importance of balancing painting technique, experimental practice, key philosophical ideas and the role ecology plays in a contemporary painting practice.

Prerequisite Checking:

You are responsible for ensuring that you have successfully completed all course prerequisites and that you have not taken an antirequisite course. Lack of prerequisites may not be used as basis of appeal. If you are not eligible for a course, you may be removed from it at any time, and you will receive no adjustment to your fees. These decisions cannot be appealed.

Plagiarism:

Plagiarism, which may be defined as “The act or an instance of copying or stealing another’s words or ideas and attributing them as one’s own,” will not be tolerated. (Citation excerpted from Black’s Law Dictionary, 1999, 7th ed.,p. 1170). This includes presenting the visual or aural work of another creator as your own. Visual or Aural Plagiarism may involve both hand-based media such as drawing, painting, printmaking and sculpture, as well as digital media such as photography, video and sound. It includes work subsequently manipulated or transferred between different media, as well as self-plagiarism – work submitted for assignments previously produced and graded for another course. Similar to textual plagiarism, all student work involving the visual or aural work of others must be appropriately cited/identified whether in print or orally. Failure to do so will lead to similar academic penalties as those identified in Western’s Academic Calendar.

Student Conduct:

All students will conduct themselves in a manner that will be consistent with the maturity and academic integrity expected of university students. Student conduct shall be consistent with the general laws of the community and with University regulations. Students shall show regard and respect for the rights, safety, and property of all members of the University community and are expected to act in a responsible manner within the University and the community at large.

Academic Sanctions:

In instances of non-payment of prescribed tuition and other fees, the University shall seal the academic record. When an academic record is sealed, the student will not be able to: a) view grades; b) register in future courses; c) receive transcripts or a degree diploma; d) obtain admission or readmission.

The above prohibitions shall be in force until such time as indebtedness to the University, including payment of fee for removal of the seal, has been cleared to the satisfaction of the University.

Additional Course Material Request Policy:

For online courses the material may be presented in a variety of ways at the instructor's discretion. Requests for additional material can only be made in cases necessitating academic accommodation. If a student requires Academic Accommodation for the course material, they can contact Western's Academic Support & Engagement department. <http://academicsupport.uwo.ca/>

Academic Consideration:

The University recognizes that a student's ability to meet their academic responsibilities may, on occasion, be impaired by medical illness. Illness may be acute (short term), or it may be chronic (long term), or chronic with acute episodes. Academic Consideration provides students with consistent, fair, and pedagogically appropriate consideration, without compromising the academic integrity of the course or program, when they have been unable to complete some component of a course due to short-term extenuating circumstances. Students who have long-term or chronic medical conditions (physical or mental) that may impede their ability to complete academic responsibilities are directed to seek Academic Accommodation through Accessible Education (Academic Accommodation for Students with Disabilities).

The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, in order to

ensure fairness and consistency for all students, academic consideration for work representing 10% or more of the student's overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet their academic responsibilities.

Documentation shall be submitted, as soon as possible and no later than 48 hours after the end of the period of absence covered, to the Academic Counselling unit or Dean's Office of the student's Home Faculty together with a request for relief specifying the nature of the academic consideration being requested. These documents will be retained in the student's file, and will be held in confidence in accordance with the University's Official Student Record Information Privacy Policy. Once the petition and supporting documents have been received and assessed, appropriate academic consideration shall be determined by the Dean's Office in consultation with the student's instructor(s). Academic consideration may include extension of deadlines, waiver of attendance requirements for classes/labs/tutorials, arranging Special Exams or Incompletes, re-weighting course requirements, or granting late withdrawals without academic penalty. Academic consideration shall be granted only where the documentation indicates that the onset, duration and severity of the illness are such that the student could not reasonably be expected to complete their academic responsibilities. (Note – it will not be sufficient to provide documentation indicating simply that the student “was seen for a medical reason” or “was ill.”)

Whenever possible, students who require academic consideration should provide notification and documentation in advance of due dates, examinations, etc. Students must follow up with their professors and their Academic Counselling office in a timely manner.

Documentation from Family Physicians/Nurse Practitioners and Walk-In Clinics:

A Western Student Medical Certificate (SMC) is required where a student is seeking academic consideration. This documentation should be obtained at the time of the initial consultation with the physician/nurse practitioner or walk-in clinic. An SMC can be downloaded at http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf.

Documentation from Student Health Services:

At the time of illness, students should make an appointment with a physician/nurse practitioner at Student Health Services. During this appointment, request a Student Medical Certificate from the Physician/Nurse Practitioner.

Documentation from Hospital Urgent Care Centres or Emergency Departments:

Students should request that an SMC be filled out. Students may bring this form with them, or request alternative Emergency Department documentation. Documentation should be secured at the time of the initial visit to the Emergency Department. Where it is not possible for a student to have an SMC completed by the attending physician, the student must request documentation sufficient to demonstrate that their ability to meet their academic responsibilities was seriously affected.

Attendance:

Under university regulations, if someone misses more than 15% of their classes (15% is equivalent to missing 8 hours of Lecture and/or Studio Lab, due to absence or lateness, or a combination of both, per semester) without written corroboration for health or bereavement, students can be debarred from participation in final evaluations and/or assignments.

Note that if a student is consistently absent from a 3-hour class for 1 hour, they will exceed the 15% cutoff and be debarred; assignments may stop being accepted and such assignments will receive a mark of 0 (zero)

Religious Accommodation:

Students should consult the University's list of recognized religious holidays, and should give reasonable notice in writing, prior to the holiday, to the Instructor and an Academic Counsellor if their course requirements will be affected by a religious observance. Additional information is given in the Western Multicultural Calendar.

Electronic Devices:

During Exams: Unless you have medical accommodations that require you to do so, or explicit permission from the instructor of the course, you may not use any electronic devices during any tests, quizzes, midterms, examinations, or other in-class evaluations.

During Lectures and Tutorials: Although you are welcome to use a computer during lecture and tutorial periods, you are expected to use the computer for scholastic purposes only, and refrain from engaging in any activities that may distract other students from learning. From time to time, your professor may ask the class to turn off all computers, to facilitate learning or discussion of the material presented in class.

Unless explicitly noted otherwise, you may not make audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast any of the material posted to the course website.

Normal Building Access (September 1st to April 30th) (Subject to change):

The John Labatt Visual Arts Centre will be closed at 10:00pm each night Monday to Friday. There will be no after-hour access for undergraduate students. The Centre is open weekends 12:00pm-5:00pm unless otherwise posted; access by side entrances only. Students should be prepared to vacate the building promptly at 10:00pm and 5:00pm. You must also sign-in with the building monitors when working in the workshop areas outside of regular office hours.

AI Policy

Plagiarism includes, but is not limited to, the unauthorized use of AI tools such as ChatGPT to create content that is submitted as one's own. In this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. Students must however critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, however students are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments should reflect the students own thoughts and independent written work.
